

**Case Study Category:** MPWW

**Case Study Title:** Sewer Capacity Analysis and Prioritization of Capacity At-Risk Areas at Seattle Public Utilities, WA

**Utility Name:** Seattle Public Utilities

**Case Study Abstract:** This case study summarizes the methodology developed and used by the Seattle Public Utilities for sewer capacity assessment and the follow-up analysis to prioritize identified areas that may require increased capacity. This project features the methods used by the SPU for sewer capacity evaluation and the eventual analysis that prioritizes the areas that may require increased capacity to meet the level of service (LOS).
